Gig Harbor Endodontics Study Club

Thursday, September 24, 2026

5:30-8:30

Ocean5

Gig Harbor, WA

Featured Speakers:

Najib Ghadri, DDS, MDS

OSYNTRA

Periodontics and Dental Implants

Beyond the Referral:

*A Modern Collaborative Approach to
Periodontal & Implant Care*

Aziz Bohra, DDS, MS

West Valley Periodontics

Seeing What We Couldn't See Before:

*Advancing Minimally Invasive
Periodontal Therapy Through Enhanced
Visualization with PerioView®
Perioscopy*

**For Attending this event 2 CE credits will be earned
Complimentary Dinner included**

To RSVP please email: officeliason@pugetsoundrootcanals.com

Study Club Featured Courses:

NAJIB GHADRI, DDS, MDS

Beyond the Referral:

A Modern Collaborative Approach to Periodontal & Implant Care

Introducing OSYNTRA Periodontics & Dental Implants

Course Objectives:

By the end of this session, participants will be able to:

- **Identify** challenges in delivering comprehensive and advanced dental care: Why patient care requires an interdisciplinary model rather than isolated specialty treatment.
- **Discuss** the modern philosophy of periodontal and implant care: Building collaborative partnerships with restorative dentists and specialists to achieve predictable, long-term outcomes.
- **Review** clinical decision-making through interdisciplinary care: Case presentations of tooth preservation, regenerative therapy, implant site development, and implant therapy.

AZIZ BOHRA, DDS, MS

Seeing What We Couldn't See Before:

Advancing Minimally Invasive Periodontal Therapy Through Enhanced Visualization with PerioView® Perioscopy

Course Objectives:

By the end of this session, participants will be able to:

- The science behind enhanced visualization: **Understanding** the biological rationale for visualization-guided periodontal therapy and its role in preserving periodontal health.
- **Demonstrate** clinical applications of minimally invasive periodontal therapy: Patient selection, clinical workflow, and evidence-based case presentations with improved treatment outcomes.
- Recognizing the right time to refer: **Identifying** clinical situations where early periodontal referral and minimally invasive therapy can improve long-term prognosis.
- Building better outcomes through collaboration: **Integrating** minimally invasive periodontal therapy into interdisciplinary treatment planning to support tooth preservation, implant success, and restorative excellence.

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the joint program provider approval of Gig Harbor Endodontics Study Club with a non-approved program provider. Gig Harbor Endodontics Study Club is approved for awarding FAGD/MAGD credit.
